Testimonials

My Step Daughters car broke down in Murfreesboro. I call Nashville Transmission and they said they would go pick it up for Free. They did. The car wouldn't even drive, the engine was messed up and the transmission wasn't working right. I thought the car was done for. So when Rick call me back after looking at the car he told me what is was going to cost to fix it and I was so surprised. The price was 1/3 the price I was expecting to pay. So I told him to go ahead and he had the car back and running the next day. Car is still running great. He even went a replaced the light bulbs in the rear taillight. All I can say is they are good people. I highly recommend them to anyone. They may not be a big chain but they have better service based on my experience with them.

David B.

It has been near four years ago I broke down on your exit. I made it to the towing place first place to pull into where a man invited me in and made a call. Said if I can make it a half block A-1 had abay door open. Had just enough to make it. You guys hooked me up with a bite to eat and a ride to a hotel. Picked me up the next day and I was on the road by noon. Its still works great and I have put some miles on it. I still remember their names Ron and John. These guys know how to build a transmission that will stand the test of time. I would recomend A-1 to anyone that wants the job done right the first time.
